---

Objective

AI/ML enthusiast with 2 years of Android development experience using Flutter, currently pursuing MCA. Seeking an AI internship to apply machine learning, NLP, and data-driven AI skills to real-world projects while expanding expertise.

Education

Master of Computer Applications (MCA) | IGNOU University | 2022-2025 (Pursuing)

Bachelor of Computer Applications (BCA) | University of Calicut | 2019

PG Diploma (Big Data Analytics) | NIELIT Calicut | 2020

Technical Skills

- Languages: Python, Java, Dart (Flutter), JavaScript, PHP/CodeIgniter
- AI/ML Frameworks: TensorFlow, PyTorch, Hugging Face Transformers, Scikit-learn
- Mobile Development: Flutter, Android app development
- Databases: MySQL, MongoDB, Firebase
- Tools: Git/GitHub, PyCharm, VS Code, Jupyter Notebook, Google Colab, Android Studio
- Web: HTML, CSS, Bootstrap, Django

Projects

Portfolio link : https://shafnajasnin98.github.io/portfolio/

Resume Screening web app - Python + NLP + Streamlit
- Extracts key skills and matches resumes with job descriptions using NLP.

Fake news detection- Python, Scikit-learn, NLP, Pandas
-A machine learning model to classify news articles as real or fake using TF-IDF and Logistic Regression.

SMS Spam Detector - Python + Transformers
- Real-time SMS classification as spam or ham.
- Streamlit app with live message display and scoring.

Recipe Chatbot - Python + Streamlit
-AI chatbot suggesting recipes via chat-style UI.
-Interactive chatbot that suggests recipes from a json dataset using random selection

Experience

Portfolio Website Developer | Self | 2023 | Kerala
- Built personal portfolio website using Flutter + Firebase.

Software Developer | First Logic Meta Lab | 01/2021 - 03/2022 | Kerala, India

- Developed and maintained web and mobile applications.
- Contributed to software design and database management.

Software Architect | Telemechanics | 08/2020 - 01/2021 | Cochin, India -
-Designed software architecture and implemented backend logic.

Software Developer | MDIGITZ Soft Solutions | 05/2020 - 08/2020 | Kerala, India -
-Worked on web applications and assisted in full-stack development.

Certifications
- **AI & Prompt Engineering**—Dubai Future Foundation,2025
- **AI Fundamentals**— IBM,2025
- **AI For All** program & completed the **AI Appreciate** stage—intel,2025
- **Prompt Engineering for Generative AI tools**—Edapt,2024
- **Python** and **Bigdata Analytics**—NIELIT,2020

Strengths & Interests
- Strong problem-solving and analytical skills
- Passion for AI, NLP, and deep learning
- Self-motivated, quick learner, adaptable to new technologies
